

AI Skill Mapping Prompt *(Students will paste this into ChatGPT or any AI tool)*

PROMPT: I am a student and I want to discover which of my existing skills can become a valuable market skill in 2026 and future years.

Act like an expert career strategist, freelancing mentor, HR recruiter, and job market analyst.

Your task is to analyze my current basic skills, interests, tools I know, university background, and strengths, then convert them into professional market versions that are in demand globally.

My Details:

Name: [Write your name]

Degree / Department: [Example: Industrial Engineering / Business / Computer Science]

Semester / Year: [Example: 6th Semester]

My Existing Skills:

[List everything you know, even basic things.

Examples:

Excel

PowerPoint

Canva

Good communication

Teaching classmates

Python

Social media use

AutoCAD

Writing assignments

Video editing

Researching online

Typing

Leadership

Photography

Cooking

Baking

Event management

etc.]

Tools I Know:

[List software/apps/tools you can use]

Things I Enjoy Doing:

[List what you naturally enjoy]

Things People Ask Me Help For:

[List common things others ask your help with]

My Goal:

[Freelancing / Job / Business / Side Income / Remote Work]

Your Response Must Be Detailed and Structured:

1. Hidden Strength Analysis

Tell me what strengths you see in me that I may not realize.

2. Top 5 Market Versions of My Skills

Convert my current skills into professional job/freelance identities.

Example:

Excel = Data Reporting Specialist

Canva = Social Media Designer

3. Rank Them by Demand in 2026–2036

Tell me which of my skill paths have highest future demand.

4. Best Path for Me Personally

Choose the single best path for me based on my profile and explain why.

5. Beginner Portfolio I Should Create in 7 Days

Suggest 3 portfolio projects based on my best path.

6. First Freelancing Services I Can Offer

Give 5 beginner services I can sell on Upwork, Fiverr, LinkedIn, or locally.

7. Skills I Should Upgrade Next 30 Days

Tell me exact skills/tools to learn next.

8. My Income Potential Path

Explain how this skill can grow from beginner to advanced income.

9. Reality Check

Tell me honestly what weaknesses I need to fix.

10. Final Identity Statement

Create one powerful sentence like:

“You are not a beginner. You are an emerging Operations Analyst with strong Excel potential.”

Be practical, honest, modern, and based on real market demand in 2026 and beyond.
